

# Bar Smart

Where science meets practice

Theoretical effectiveness 1.0

X

Implementation 0.1

---

Real life impact **0.1**

Theoretical effectiveness 0.5

X

Implementation 0.5

---

Real life impact **0.25**

## What do you think?

- Sometimes one should give in on evidence base of an intervention in order to enlarge the transferability to real-life
- Implementation issues should not only be taken into account during a developmental process but also in effect studies.

Thank you
